

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

After that impressive showing made by the Pipers here Friday night against Olney this has been a long week for most local fans as they have to wait until Friday for the season opener against arch rival Rotan.

After watching the Pipers in workouts and in their scrimmages for the past three weeks we suspect that there are going to be some surprised people around the Big Country when they see this bunch of Pipers play.

With only two returning starters back from last year's Bi-District Championship team most so-called football experts have put the Pipers down as only 'so so' contenders. But while the Pipers do not have the super stars that last year's team was blessed with they do have a great deal of desire and determination.

Many hours of work have been put in by both the boys and their coaches during the off season and we expect that there will be a number of "super stars" around before the season ends.

If you have not bought your season tickets yet, we would urge you to get them before Friday night. Not only will you be assured of a seat but you can save money too. If the scrimmages are any indication of the crowds this year then a good seat may be hard to come by. And a season reserve seat bought now will save you \$2.50 for the season.

Since this is turning out to be a sports column this week we might as well pass along the following rating system that we found in the Seminole Sentinel:

AGILITY

Star—Leaps over tall buildings with a single bound.

Starter—Must take running start to leap over tall buildings.

Reserve—Can leap over short buildings only.

Fan—Crashes into buildings when attempting to jump over them.

SPEED

Star—Is faster than a bullet.

Starter—Is as fast as a bullet.

Reserve—Not quite as fast as a bullet.

Fan—Able to shoot a bullet.

Anti-Athlete—Wounds self with bullet when attempting to shoot.

STRENGTH

Star—Is stronger than locomotive.

Starter—Is stronger than bull elephant.

Reserve—Is stronger than bull.

Fan—Shoots the bull.

Anti-Athlete—Smells like a bull.

CLUTCH PLAY

Star—Walks on water consistently.

Starter—Walks on water in emergencies.

Reserve—Walks on puddles.

Fan—Showers with water.

Anti-Athlete—Passes water in emergencies.

PERFORMANCE

Star—Makes things happen.

Starter—Helps make things happen.

Reserve—Watches things happen.

Fan—Wonders what happened.

Anti-Athlete—Unaware anything happened.

ABILITY

Star—Blocks star rival.

Reserve—Blocks teammate.

Fan—Blocks view.

Anti-Athlete—Blocks gate.

ATTITUDE

HOUSE OF TOMORROW—Rev. and Mrs. Howard J. Jones were presented a 'house of tomorrow' in which time certificates representing gifts from the membership were given to apply toward a home of their own after retirement. The surprise presentation was made at a covered dish dinner last Wednesday evening at First Baptist Church Fellowship Hall. The gifts exceeded \$2,000. The occasion honored the couple on their 33rd wedding anniversary and their fourthcoming fourth anniversary at the local church.

Haskell Man Employed As CSTE Area Coordinator

A native West Texan was hired as area coordinator this week by four counties for a Concerted Services in Training and Education Committee (CSTE) project.

Gerald B. Fincher, 43, of Haskell, was selected from a field of eight applicants to serve as coordinator in Jones, Haskell, Knox and Stonewall Counties.

Representatives from the four counties voted two weeks ago to accept a \$20,000 grant to finance the position of coordinator.

CSTE is an experimental rural program, a cooperative federal, state and local venture, designed to bring together in a concerted manner the services of various federal and state

agencies for improvement in education, employment, health, housing and economic resources.

Fincher, who will continue to live in Haskell, comes to the position from the Aspermont Small Business Development Center, Inc. He became coordinator effective Sept. 1 with offices tentatively planned for Haskell.

He has been on loan from the Aspermont center to the Small Business Administration, assisting in a disaster project in Arkansas. Fincher was born at Girard in Kent County. He graduated from Girard High School in 1938 and served in the U.S. Air Corps from 1942 to 1945 during World War II.

He and his wife, Sue, have three children, two of whom are living at home.

He served as county and district clerk in Kent County from 1952 to 1962 and operated a retail grocery in Jayton from 1962 to 1966.

He has worked with the Aspermont center since 1966.

Fincher will be making contacts in the communities within the four counties during the first week in September. He will attend a training seminar in economic development in Austin Sept. 9-13.

The two artists have just returned from teaching summer art classes in the Jan Herring Studio in Cloudford, N. M.

Crump was formerly a teacher in the Hamlin schools and has now started teaching art on a full time basis. Both artists are conducting classes in the area, including Eastland, Knox City, Anson and Stamford.

A demonstration and lecture will be held Tuesday evening at 7.

Meeting Set Here Monday For Adult Ed

An organizational meeting for an adult education class sponsored by the Hamlin Independent School District will be held here in the junior high school building at 7:30 p.m. Monday.

The courses, open to all non-high school graduates in the area, will include basic English, math and history and will be directed to the high school equivalency diploma or the GED test.

Hamlin School Superintendent Bob Hawes said that participants need not be residents of Hamlin to enroll in the class. Additional information can be obtained by calling 576-2459 after 4:00 p.m.

Pipers to Open Season Here With Rotan Friday

Coach David Bonds' Pled Pipers will open their football campaign here Friday evening when they take on the Rotan Yellowhammers in Piper Stadium with the kickoff set for 8 p.m.

The Pipers made an impressive showing in their final scrimmage here Friday evening when they rolled up over 600 yards in total offense while holding Olney to less than 200 yards in the controlled scrimmage.

But the scrimmage proved to be a costly one as the Pipers lost the services of one of their starting linebackers when Raymond Jordan suffered a neck injury late in the scrimmage. He is expected to be out of action for several weeks.

The Yellowhammers have a new coach this year in Fred Boone and are rated to finish fifth in District 8-A.

Probable offensive starters for Coach Bonds' Pipers will be Senior Tracy Rowland, 150, at quarterback; Senior Johnny Jones, 175, at left halfback; Junior Daniel Willis, 140, at right halfback; and Senior Steve Evans, 160, at fullback. Jones is the only starter in the backfield back from last year while both Rowland and Evans are returning lettermen. Willis ran on the junior varsity last year.

On the line offensively for the Pipers will be Senior Oscar Marshall, 145, and Senior William Brown, 145, sharing split end duties as they bring in the plays from the bench. At tight end will be Sophomore Delbert Thompson, 190. Ray Sonnenburg, 195 pound senior, and Gary Mayes, 185 pound junior, will be the offensive tackles and Gerry Young, 190 pound senior, and Luke Reynolds, 170 pound senior, will be the starting guards. Gary Neal,

170 pound senior, will be at center.

Young is the only offensive starter in the line from last year's Bi-District championship team.

Starting on defense for the Pipers will be Gerry Young, 190 pound senior; and David Moore, 180 pound junior, at tackles; Donnie Nelson, 180 pound junior, and Delbert Thompson, 190 pound sophomore, at ends. Middle linebackers will be Russell May, 160 pound junior, and Paul Reynolds, 160 pound sophomore. Reynolds will be filling in for the injured Raymond Jordan.

Playing cornerbacks will be Ricci Harugthy, 145 pound

senior, and Eddie Rivera, 140 pound senior. In the secondary will be William Brown, 145 pound senior at one halfback and Robert Pharris, 140 pound junior at the other halfback spot and Johnny Jones, 175 pound senior at safety.

Captains for this year's Pipers will be seniors Tracy Rowland, Johnny Jones, Gerry Young and Ricci Harugthy.

Booster Club Sets Ice Cream Supper Monday

The Pled Piper Booster Club will host an Ice Cream Supper for all members at their regular meeting Monday evening, according to Bobby Moore, president.

The Booster Club meets each Monday evening at 7 p.m. in the high school cafeteria. A scouting report on the upcoming game to be played by the Pipers is given by a member of the coaching staff and the film of the previous week's game is shown.

Homemade ice cream will be served to all members attending this meeting Monday evening to launch the new season, Moore said.

Memberships in the organization are still available and are \$5.00 per family. They may be purchased at the meeting Monday evening.

Buford Bigham to Head Salvation Army Campaign

Buford Bigham has been named campaign chairman for the annual Salvation Army fund drive here, according to Joe Ford, chairman of the local service unit.

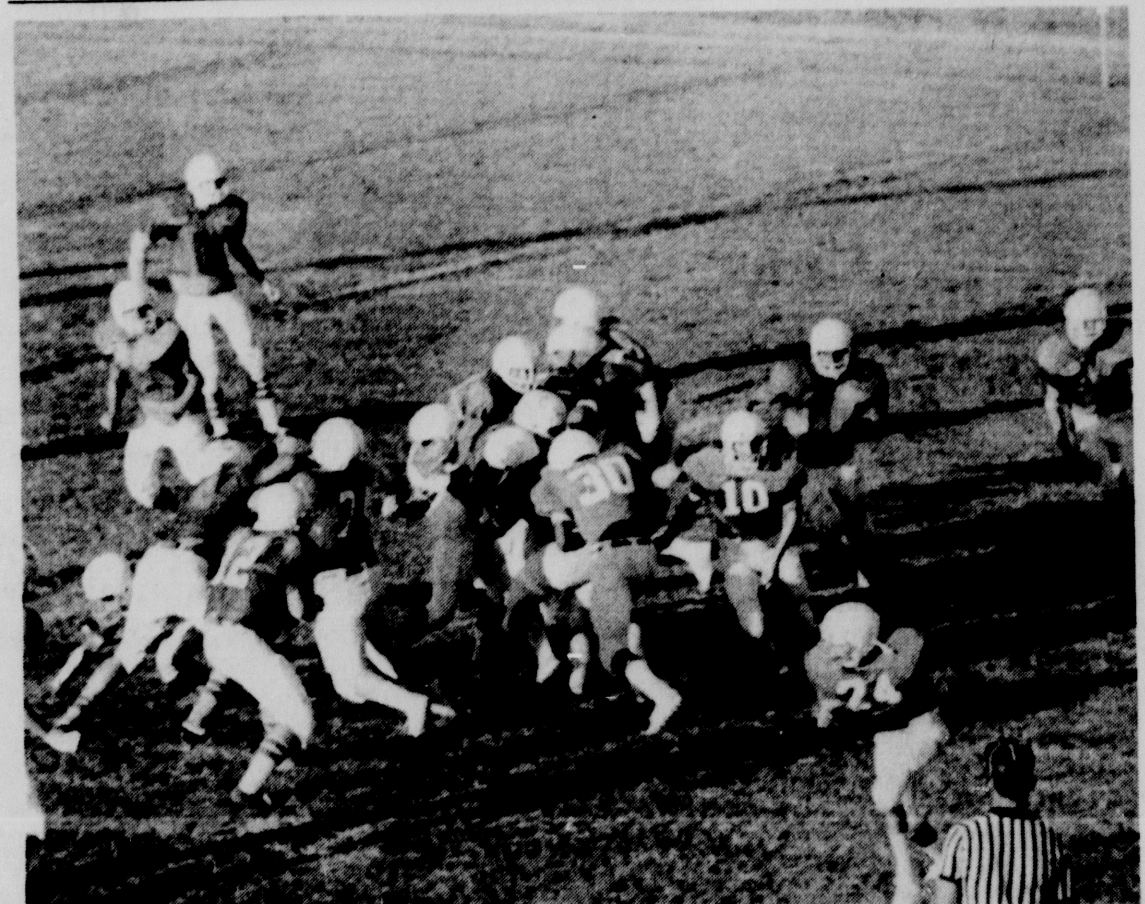

The campaign will start here Wednesday, Sept. 11, at 7 a.m. with a breakfast for all captains and workers at the Hamlin Restaurant.

The money raised during this campaign is used to help the less fortunate to help themselves, Bigham said. The aid is given in the form of groceries, clothes, shoes, rent, utilities, medical aid or

any other need deemed necessary by the local committee, he added.

In addition to the local aid, the drive also helps support the following state agencies, the chairman said: Home and Hospitals for Unwed Mothers, Home for Neglected Girls, Rehabilitation Centers for Alcoholics and Drug Addicts, Summer Camp for Boys, Home for the Elderly and Disaster Services.

In addition to Ford the local committee consists of Mrs. Erma Wallace, Joe Hudspeth, Bob Craig and the Rev. Marshall Stewart.

JV SCRIMMAGE—Stanley Jones (30) Hamlin sophomore dives into the middle of the line during the Junior Varsity scrimmage here with Olney Friday evening. The scrimmage that pitted all three Hamlin teams against Olney teams during the evening was moved from Olney to Hamlin because the Olney field was not ready. The JV's will open their season here today (Thursday) with Rotan at 6 p.m. The Varsity will open its season here Friday with Rotan.

**Would you like to get
back part of every
shopping dollar
you spend?**

**YOU CAN . . .
WHEN YOU DO
YOUR SHOPPING
AT HOME!**

Most of us know that we usually get better values and service when we shop at our local stores. But did you know that by shopping at home, you also get back part of each dollar you spend? Here's how it works: Spending more money at home means more money in the form of wages to local merchants and their employees. More wages mean more taxes for our local government and more tax monies mean more and better community services and improvements. More money at home means a stronger and healthier economy all the way around. If you work at home, chances are that the money you spend here will eventually find its way back to you not only in the form of community improvements, but by creating more and better jobs and higher pay due to a better local economy. Shop at home for better values, better service, a better community and better jobs!

The program will be "September—Gardening Where you Live" given by Mrs. J. A. George.

First place winners at the Tuesday evening meeting of the Hamlin Duplicate Bridge Club were Mrs. Jewell Butler and Mrs. Mabel Lillius, both of Abilene.

Taking second place were Mrs. G. W. Comegys and Mrs. Floyd Briscoe.

Helen Virdine and Pate Willingham, both of Abilene, placed third.

Mr. and Mrs. Thomas James Holland are parents of a girl, Marcella Kay, 6 lbs. 8 oz., born Aug. 22 at 6:27 a.m.

FOOD MARKETING ALERT

As of mid-August, the food supply situation in September is expected to look like this...

RED MEATS —

Beef supplies will be moderately above September 1973. But all of the gain will come from grass-fed cattle, which will move to market in larger volume. Supplies of grain-fed beef will approximate the low level of September 1973.

Pork production should exceed year-earlier rates, but run below the 1970-72 average. Hog slaughter rates should be starting the seasonal increase.

POULTRY & EGGS —

Egg output should be slightly below September 1973 and about 4% under the 1971-73 average.

Broiler-fryers should be down 2% to 4% from last September and 4% to 6% below the 1971-73 average.

Turkey new-crop marketings should be about 2% below September 1973 and about 9% under the 1971-73 average. Cold storage holdings remain at record levels — one-third more than the most recent 3-year average.

MILK & DAIRY PRODUCTS —

Fluid milk, butter, cheese, and nonfat dry milk supplies should be adequate. Although milk production continues to decline seasonally, commercial stocks of the three manufactured items remain above levels of a year ago and the 1971-73 average.

FRUITS, VEGETABLES, NUTS

Bartlett pear supplies will be ample, with output from

California, Oregon, and Washington nearly equal to the 1971-73 average but 6% under 1973.

Prune and plum production in Michigan, Idaho, Washington, and Oregon should be about 10% less than last year and 5% below the 1971-73 average.

California grape supplies will be ample. Production is slightly less than a year ago, but 17% more than the 1971-73 average.

Apples will be ample as the late summer-fall harvest gets underway. The 1974 crop will be slightly under last year's, but about equal to the 1971-73 average.

Canned non-citrus fruits will continue tight, but citrus juices will be plentiful. At the end of July, Florida concentrated orange juice stocks were 20% larger than 1973's abundant supply.

Dried prunes remain ample. This year's production is expected to run 24% less than last year, but be greater than the latest 3-year average.

Raisin supplies will be moderate, due mainly to 1973-crop inventories. That crop was 32% above the 1970-72 average.

Fresh vegetables will be ample and canned vegetables generally adequate. Stocks of most processed tomato products may be heavy.

Frozen vegetables will be in good supply. July 1 stocks were 34% above 1973 and

22% ahead of the 1971-73 average.

Potato supplies are increasing seasonally. The 1974 summer crop is 11% above 1973, and more fall-crop acreage—7% over 1973—should boost fall production. July 1 frozen potato stocks were 5% above 1973, but 14% below the 1971-73 average.

Walnuts will be abundant. Production in 1974 should be about 19% less than the large 1973 crop but about equal to the 1971-73 average.

Almond supplies will be more than adequate, since 1974 production is expected to be much larger than both the 1973 and the 1971-73 averages.

Peanuts remain ample. Production in 1974 is expected to be slightly under last year's record crop but larger than the 1971-73 average.

GRAINS & LEGUMES —

Dry bean supplies should be ample, with expected record output 24% above last year and the 1971-73 average. Dry peas and lentils should be ample, with dry peas nearly doubling last year's crop and totaling 28% more than the most recent 3-year average. A larger than average lentil crop is expected.

Rice supplies are expected to be fully adequate. A record crop is forecast—15% above a year ago and 22% above the latest 3-year average.

Wheat will be tight but adequate for U.S. needs. The new crop, mostly harvested, is pegged at a record — 8% above 1973 and 13% over the 1971-73 average.

Corn for food should be adequate even though the corn crop is forecast at 12% below a year ago and the 1971-73 average.

Unusual Shrimp Salad Is A Dieter's Dream

It is not often one slim-down dish offers so much for so few calories, but it is all here—protein, vegetables, starch, great flavor, and servings so generous they can take a long, beautiful time to eat!

Shrimp and rice are at the heart of it. Shrimp, of course, are all lean and low-calorie (about 150 to the 4½-ounce can), but they contribute the high quality protein needed to hold back hunger between meals. In modest quantities, rice adds only its wallop of fuel and energy. As the saying goes, it is not the starch that fattens but what is spooned over it. And a trick way of cooking the rice gives the whole salad a very satisfying but deceptively rich flavor.

This is a pretty salad—all shrimp-pink and greens—with a slightly Oriental look, particularly when vegetables are cut on the slant. It serves four but for one person single servings may be spaced by adding rice and fresh ingredients to the shrimp mixture as needed.

WAIST WATCHER

SHRIMP SALAD

- 1 can (4½-ounces) shrimp
 - 1 can (1 pound) cut green beans
 - 1 garlic clove, thinly sliced
 - 1 tablespoon salad oil
 - 1/4 teaspoon dry mustard
 - 1/2 teaspoon sugar
 - 1/4 cup vinegar
 - 2 chicken bouillon cubes
 - 2/3 cup uncooked rice
- 1 cup sliced celery
1/2 cup sliced scallions or sweet onion
- 2 cups shredded crisp lettuce
Soy sauce (optional)

Have shrimp and beans chilled in the can. Drain both, reserving the bean liquid. Crush garlic in a large salad bowl. Add oil, mustard, sugar, vinegar, shrimp and beans. Toss well; refrigerate. Heat bean liquid; add bouillon cubes and stir until dissolved. In a saucepan combine liquid with enough water to make 2 cups. Add rice. Bring to a boil and cook rapidly, uncovered, about 8 minutes or until rice stands above the water line. Reduce heat to lowest point; cover closely and steam 12-14 minutes. Spread rice in a shallow pan to cool, using a fork to separate the grains. Refrigerate 10 minutes or until needed. At serving time, add rice to shrimp and bean mixture; toss together with celery, onion, lettuce. Serve with soy sauce. 4 servings.

FROM THE FILES . . .

FIFTY YEARS AGO
(September 5, 1924)

The Hamlin City Public Schools will open next Wednesday morning, Sept. 10, with the rendition of a program in the auditorium, beginning at 8:30. Those who are interested in the welfare of the Hamlin school, which will include everybody in Hamlin and its trading territory, are asked to be with us for this opening program.

A mid-summer government report indicated that the leaf worm would probably not infest the state this season. A second report shows that the pest has crossed the Rio Grande and is northward bound. In Haskell and on the south side of Jones County, this worm has appeared. Every cotton grower should inspect his fields daily, and if small holes are found in the leaves, likely the leaf worm is present.

Over 200 bales of cotton have already been weighed in the cotton yard of Hamlin. The cotton season is NOW on and business is beginning to hum. Hamlin has her usual large number of cotton men, who give all that the market will allow. Cotton on Thursday was selling around \$23.50 or better. Seed was selling for \$29.00.

Another call meeting is made for Hamlin High School Seniors, to be held in the High School Auditorium. Saturday morning, Sept. 6th, at 10:00 o'clock. Important. Be sure to come.

TWENTY YEARS AGO
(September 3, 1954)

Hamlin area exhibitors played a major role in the annual Fisher County Fair and Livestock Show at Roby last Saturday. J. Olin Amerson's Atomic Domino beat out Y-6 Royal Mixer 102nd, shown by Elbert Payne, herdsman for Mrs. Faye Young Morton's Y-6 Ranch at Hamlin, for the blue ribbon.

Painters were busy in the middle of the week painting the new water tank recently installed at the city pump station to care for needs of the Celotex Corporation. The tank was moved from Sweetwater, and reerected by a special tank crew.

First quarterly conference of the new church year for Hamlin First Methodist Church will be conducted Sunday morning at 11:00 o'clock,

according to Rev. Darris L. Egger, pastor.

Selection of the Jubilee Queen at the first annual Tri-County Jubilee in Hamlin next Saturday, Sept. 11, will provide not only a display of beauty and talent of this region of West Texas, but promises to furnish a competitive feature second only to the naming of Galveston's bathing beauty each spring.

Work on the big new \$70,000 water filtration plant for the City of Hamlin is about two-thirds completed at the city pump station. Practically all the cement work had been done by mid-week, and the big piping system was being installed this week.

TEN YEARS AGO
(September 3, 1964)

The Hamlin Lions Club will celebrate their Thirty-fifth anniversary with a banquet at the Primary School Cafeteria Thursday, Sept. 10, according to Bob Craig, president. The Ladies affair will be at 7:30.

Family Night will be held by the Hamlin Riding Club tonight at the local arena. The same events that have been scheduled during the summer will be held.

High winds caused heavy damage to trees, television antennas and tin roofs here Saturday afternoon. The strong wind was followed by rain which measured .68. Rain earlier in the week, on Wednesday evening, amounted to .93. Residents east and southeast of Hamlin spotted two funnels in the E. L. Jenkins Sr. fields. They said one appeared to go northeast and the other southeast.

The Rev. Byron Bryant, director of religious activities at Hardin-Simmons University and formerly director of public relations for the university, Sunday announced he has accepted a call to the pastorate of the First Baptist Church of Hamlin and resigned his H-SU post.

David Casey will head the annual Salvation Army Campaign, according to Floyd Clifton, Salvation Army Service Unit Chairman. The goal of the campaign is \$800.00. The campaign organization will begin immediately with the kick-off set for Sept. 18.

Neinda Philosopher Finds Ideal Way
To Rescue Himself From Inflation

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route one takes another look at the problem of inflation this week.

Dear editor:

As I understand it from reading the newspapers that turn up out here, the economists are saying that in our fight against inflation everybody is simply going to have to tighten his belt, which

Visitors in the home of Mr. and Mrs. Louis Stinnett last week were his two daughters and a son and their families, Mr. and Mrs. Todd Roberts Jr., Cindy and Susan of Bullhead City, Ariz., Mrs. Nancy Mayfield and Gary of Hurst and Mr. and Mrs. Louis Stinnett Jr., Trey and Leah of Abilene.

Mr. and Mrs. Henry Downey attended the John Lewis Moore reunion at Gainesville Sunday. Mr. and Mrs. A. W. Bowen, Mr. and Mrs. Charles C. Bowen and Mrs. E. N. Bowen, all of Sweetwater, also attended. Mrs. John Lewis Moore Jr., 87, of Amarillo was the oldest present.

W. M. Watson returned home Saturday after being in Galveston with his son, Jim, who received a kidney transplant at John Sealy Hospital Aug. 20. Jim is reported to be recovering nicely. Mrs. Watson is still in Galveston. Mail may be sent to James Watson, Room P 425, John Sealy Hospital, Galveston, Texas 77550.

is hard to do if you're wearing overalls, not to mention those new-fangled double-knit slacks that don't even have belt loops. Also, it would be wise to make sure your belt is in good shape before you take it up a notch because if you break it you'll find a new one has tripled in price.

However, my favorite way to fight the effects of inflation is the idea hit on by a big airline. It says the tremendous increase in the price of fuel, repairs, maintenance, salaries, etc. has caused it to lose millions and it's facing bankruptcy and therefore the Federal government should lend it 10 million dollars a month, retroactive to several months back.

That's the answer. Anybody who can't make ends meet is entitled to a government loan and I'd like to find out where I can apply before the line stretches from Washington to Hamlin and four times around the block here. If the government will lend me money for every month in the past I failed to make ends meet and for all months in the future the same thing happens, I'll guarantee to arrange my operations to be a steady customer from now on.

In some ways it seems to me the fight against inflation is sort of like our fight in Vietnam. After spending

Sgt. Jack LaBaume and a friend, Ray, of Ft. Carson, Colorado Springs, Colo. spent Labor Day holiday weekend with his grandmothers, Mrs. C. E. LaBaume and Mrs. W. F. Lasseter.

billions and billions of dollars over there it's still hard to figure out what we achieved, other than finally getting out.

The question now is, how do you withdraw from inflation? A rancher friend of mine said cattlemen already have half-withdrawn. They're getting half what their cattle are worth and paying twice as much to raise them. Said if cattle go down a little bit more he's going to have to start paying buyers to take em.

Yours faithfully,
J. A.

HUSTLE
AND
BUSTLE

The big city throbs with business life, heavy traffic, and the comings and goings and doings of many people. Whether you live in the city or you just come to town occasionally from the small town or farm, you have experienced this hustle and bustle. It reminds you that all life sometimes gets too hurried, too frantic with all we must do. We need a time to stop and somewhere to go to find peace and respite from all this. Have you thought of trying God? Job 22:21 says, "Acquaint now thyself with God and be at peace."

How sweet it is to be in God's house, to feel close to Him, to listen to His word. Tension leaves. Peace of soul arrives. Won't you attend God's house this week and see what he can do for you?

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

I heard the same question in 1937.

WHERE WILL WE GET ELECTRICITY?

The member-owned electric cooperative has had to solve many critical problems since it was first organized more than 30 years ago. The present high cost of generating fuels and the resultant higher electric bills represent another hurdle to clear. But the electric cooperative has always provided dependable power when and where it was needed. We will continue to offer that same dependable supply of electricity at its lowest possible price.

NEWS FROM OLD GLORY

By BERNICE D. WHITE

Our community is proud to have a representative in the West Texas Fair Sweetheart Contest at Abilene this year. Susan Baldree, daughter of Mr. and Mrs. Oren Baldree, will represent the Old Glory 4-H Club in the contest.

Susan has been very active in 4-H for the past nine years and has won many honors including Gold Star Girl from Stonewall County.

Susan and her mother attended the luncheon held at the Westwood Club in Abilene Saturday, honoring all Sweetheart contestants. The girls have been appearing on Channel 9 T.V. during the past week. Susan appeared for her T.V. interview Monday.

There are 24 contestants and they will be in the West Texas Fair Parade Sept. 7 in Abilene. No doubt many of us will be watching Susan and rooting for her in this contest.

4-H

The Old Glory 4-H Club met local people who were afraid to go home.

The Flemmiken, owners of Cross Timbers Motor Inn, said that all of their 12 rooms were filled.

Among the representatives of news media at their motel were WFAA and WBAP radio and tv, three Time magazine reporters, one from Houston, one from Los Angeles, and one from New York; two rooms of NBC personnel; Abilene Reporter-News, and two Houston tv stations.

Mrs. Flemmiken said that their switchboard was jammed most of the time.

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

After that impressive showing made by the Pipers here Friday night against Olney this has been a long week for most local fans as they have to wait until Friday for the season opener against arch rival Rotan.

After watching the Pipers in workouts and in their scrimmages for the past three weeks we suspect that there are going to be some surprised people around the Big Country when they see this bunch of Pipers play.

With only two returning starters back from last year's Bi-District Championship team most so-called football experts have put the Pipers down as only 'so so' contenders. But while the Pipers do not have the super stars that last year's team was blessed with they do have a great deal of desire and determination.

Many hours of work have been put in by both the boys and their coaches during the off season and we expect that there will be a number of "super stars" around before the season ends.

If you have not bought your season tickets yet, we would urge you to get them before Friday night. Not only will you be assured of a seat but you can save money too. If the scrimmages are any indication of the crowds this year then a good seat may be hard to come by. And a season reserve seat bought now will save you \$2.50 for the season.

Since this is turning out to be a sports column this week we might as well pass along the following rating system that we found in the Seminole Sentinel:

AGILITY

Star—Leaps over tall buildings with a single bound.

Starter—Must take running start to leap over tall buildings.

Reserve—Can leap over short buildings only.

Fan—Crashes into buildings when attempting to jump over them.

Anti-Athlete—Cannot recognize buildings at all.

SPEED

Star—Is faster than a bullet.

Starter—Is as fast as a bullet.

Reserve—Not quite as fast as a bullet.

Fan—Able to shoot a bullet.

Anti-Athlete—Wounds self with bullet when attempting to shoot.

STRENGTH

Star—Is stronger than locomotive.

Starter—Is stronger than bull elephant.

Reserve—Is stronger than bull.

Fan—Shoots the bull.

Anti-Athlete—Smells like a bull.

CLUTCH PLAY

Star—Walks on water consistently.

Starter—Walks on water in emergencies.

Reserve—Walks on puddles.

Fan—Showers with water.

Anti-Athlete—Passes water in emergencies.

PERFORMANCE

Star—Makes things happen.

Starter—Helps make things happen.

Reserve—Watches things happen.

Fan—Wonders what happened.

Anti-Athlete—Unaware anything happened.

ABILITY

Star—Blocks star rival.

Starter—Blocks opponent.

Reserve—Blocks teammate.

Fan—Blocks view.

Anti-Athlete—Blocks gate.

ATTITUDE

Star—Talks to God.

Starter—Talks to angels.

Reserve—Talks to himself.

Fan—Argues with himself.

Anti-Athlete—Loses those arguments.

HOUSE OF TOMORROW—Rev. and Mrs. Howard J. Jones were presented a 'house of tomorrow' in which time certificates representing gifts from the membership were given to apply toward a home of their own after retirement. The surprise presentation was made at a covered dish dinner last Wednesday evening at First Baptist Church Fellowship Hall. The gifts exceeded \$2,000. The occasion honored the couple on their 33rd wedding anniversary and their fourthcoming fourth anniversary at the local church.

Haskell Man Employed As CSTE Area Coordinator

A native West Texan was hired as area coordinator this week by four counties for a Concerted Services in Training and Education Committee (CSTE) project. Gerald B. Fincher, 43, of Haskell, was selected from a field of eight applicants to serve as coordinator in Jones, Haskell, Knox and Stonewall Counties.

Representatives from the four counties voted two weeks ago to accept a \$20,000 grant to finance the position of coordinator.

CSTE is an experimental rural program, a cooperative federal, state and local venture, designed to bring together in a concerted manner the services of various federal and state

agencies for improvement in education, employment, health, housing and economic resources.

Fincher, who will continue to live in Haskell, comes to the position from the Aspermont Small Business Development Center, Inc. He became coordinator effective Sept. 1 with offices tentatively planned for Haskell.

He has been on loan from the Aspermont center to the Small Business Administration, assisting in a disaster project in Arkansas. Fincher was born at Girard in Kent County. He graduated from Girard High School in 1938 and served in the U.S. Air Corps from 1942 to 1945 during World War II.

He and his wife, Sue, have three children, two of whom are living at home.

He served as county and district clerk in Kent County from 1952 to 1962 and operated a retail grocery in Jayton from 1962 to 1966.

He has worked with the Aspermont center since 1966.

Fincher will be making contacts in the communities within the four counties during the first week in September. He will attend a training seminar in economic development in Austin Sept. 9-13.

Start of Fall Art Classes Announced

Mrs. James Blanton announces a second series of fall art classes at the Art Studio and Gallery to be taught by Virginia Barlett and John Crump, both of Anson.

The two artists have just returned from teaching summer art classes in the Jan Herring Studio in Cloudford, N. M.

Crump was formerly a teacher in the Hamlin schools and has now started teaching art on a full time basis. Both artists are conducting classes in the area, including Eastland, Knox City, Anson and Stamford.

A demonstration and lecture will be held Tuesday evening at 7.

Meeting Set Here Monday For Adult Ed

An organizational meeting for an adult education class sponsored by the Hamlin Independent School District will be held here in the junior high school building at 7:30 p.m. Monday.

The courses, open to all non-high school graduates in the area, will include basic English, math and history and will be directed to the high school equivalency diploma or the GED test.

Hamlin School Superintendent Bob Hawes said that participants need not be residents of Hamlin to enroll in the class. Additional information can be obtained by calling 576-2459 after 4:00 p.m.

Pipers to Open Season Here With Rotan Friday

Coach David Bonds' Pied Pipers will open their football campaign here Friday evening when they take on the Rotan Yellowhammers in Piper Stadium with the kickoff set for 8 p.m.

The Pipers made an impressive showing in their final scrimmage here Friday evening when they rolled up over 600 yards in total offense while holding Olney to less than 200 yards in the controlled scrimmage.

But the scrimmage proved to be a costly one as the Pipers lost the services of one of their starting linebackers when Raymond Jordan suffered a neck injury late in the scrimmage. He is expected to be out of action for several weeks.

The Yellowhammers have a new coach this year in Fred Boone and are rated to finish fifth in District 8-A.

Probable offensive starters for Coach Bonds' Pipers will be Senior Tracy Rowland, 150, at quarterback; Senior Johnny Jones, 175, at left halfback; Junior Daniel Willis, 140, at right halfback; and Senior Steve Evans, 160, at fullback. Jones is the only starter in the backfield back from last year while both Rowland and Evans are returning lettermen. Willis ran on the junior varsity last year.

On the line offensively for the Pipers will be Senior Oscar Marshall, 145, and Senior William Brown, 145, sharing split end duties as they bring in the plays from the bench. At tight end will be Sophomore Delbert Thompson, 190. Ray Sonnenburg, 195 pound senior, and Gary Mayes, 195 pound junior, will be the offensive tackles and Gerry Young, 190 pound senior, and Luke Reynolds, 170 pound senior, will be the starting guards. Gary Neal,

170 pound senior, will be at center.

Young is the only offensive starter in the line from last year's Bi-District championship team.

Starting on defense for the Pipers will be Gerry Young, 190 pound senior; and David Moore, 180 pound junior, at tackles; Donnie Nelson, 180 pound junior, and Delbert Thompson, 190 pound sophomore, at ends. Middle linebackers will be Russell May, 160 pound junior, and Paul Reynolds, 160 pound sophomore. Reynolds will be filling in for the injured Raymond Jordan.

Playing cornerbacks will be Ricci Harugthy, 145 pound

senior, and Eddie Rivera, 140 pound senior. In the secondary will be William Brown, 145 pound senior at one halfback and Robert Pharris, 140 pound junior at the other halfback spot and Johnny Jones, 175 pound senior at safety.

Captains for this year's Pipers will be seniors Tracy Rowland, Johnny Jones, Gerry Young and Ricci Harugthy.

Booster Club Sets Ice Cream Supper Monday

The Pied Piper Booster Club will host an Ice Cream Supper for all members at their regular meeting Monday evening, according to Bobby Moore, president.

The Booster Club meets each Monday evening at 7 p.m. in the high school cafeteria. A scouting report on the upcoming game to be played by the Pipers is given by a member of the coaching staff and the film of the previous week's game is shown.

Homemade ice cream will be served to all members attending this meeting Monday evening to launch the new season, Moore said.

Memberships in the organization are still available and are \$5.00 per family. They may be purchased at the meeting Monday evening.

Buford Bigham to Head Salvation Army Campaign

Buford Bigham has been named campaign chairman for the annual Salvation Army fund drive here, according to Joe Ford, chairman of the local service unit.

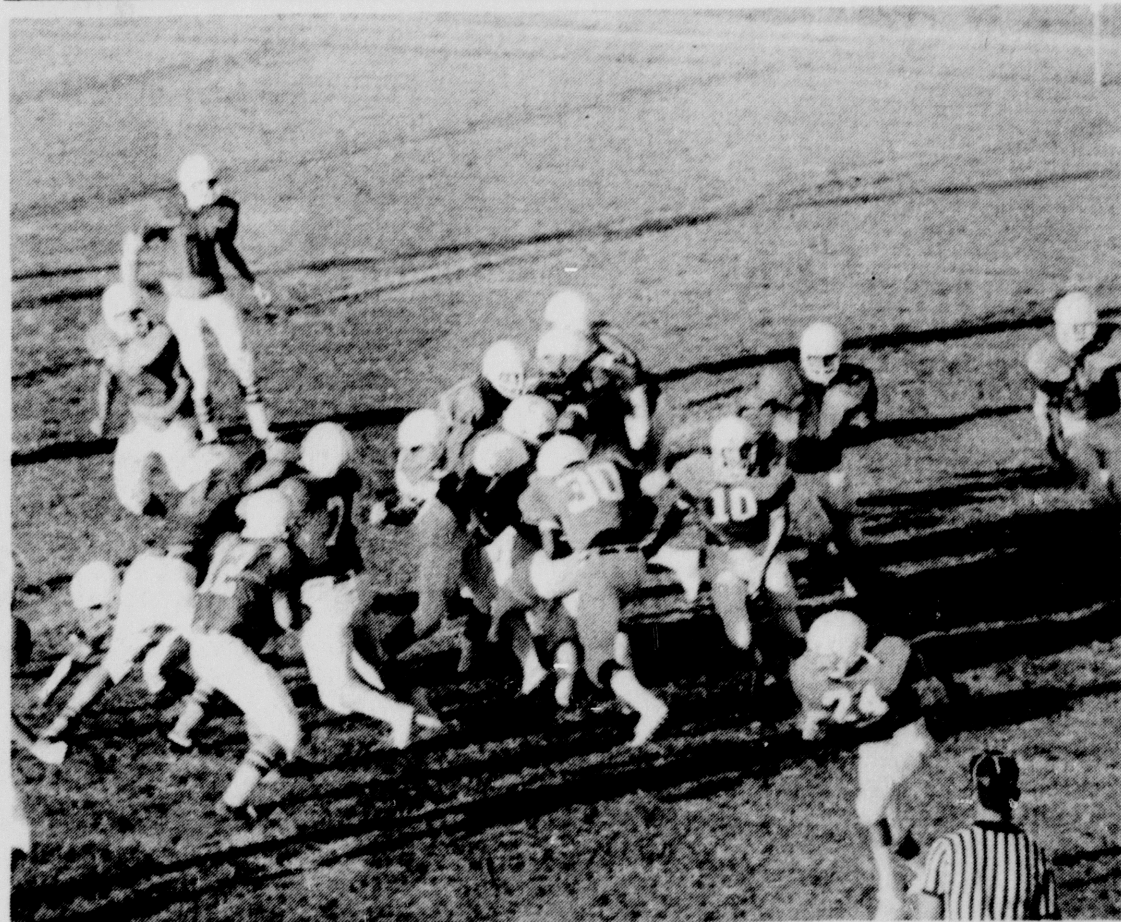

The campaign will start here Wednesday, Sept. 11, at 7 a.m. with a breakfast for all captains and workers at the Hamlin Restaurant.

The money raised during this campaign is used to help the less fortunate to help themselves, Bigham said. The aid is given in the form of groceries, clothes, shoes, rent, utilities, medical aid or

any other need deemed necessary by the local committee, he added.

In addition to the local aid, the drive also helps support the following state agencies, the chairman said: Home and Hospitals for Unwed Mothers, Home for Neglected Girls, Rehabilitation Centers for Alcoholics and Drug Addicts, Summer Camp for Boys, Home for the Elderly and Disaster Services.

In addition to Ford the local committee consists of Mrs. Erma Wallace, Joe Hudspeth, Bob Craig and the Rev. Marshall Stewart.

**Would you like to get
back part of every
shopping dollar
you spend?**

**YOU CAN . . .
WHEN YOU DO
YOUR SHOPPING
AT HOME!**

Most of us know that we usually get better values and service when we shop at our local stores. But did you know that by shopping at home, you also get back part of each dollar you spend? Here's how it works: Spending more money at home means more money in the form of wages to local merchants and their employees. More wages mean more taxes for our local government and more tax monies mean more and better community services and improvements. More money at home means a stronger and healthier economy all the way around. If you work at home, chances are that the money you spend here will eventually find its way back to you not only in the form of community improvements, but by creating more and better jobs and higher pay due to a better local economy. Shop at home for better values, better service, a better community and better jobs!

FOOD MARKETING ALERT

USDA
Agricultural Marketing Service

As of mid-August, the food supply situation in September is expected to look like this...

RED MEATS —

Beef supplies will be moderately above September 1973. But all of the gain will come from grass-fed cattle, which will move to market in larger volume. Supplies of grain-fed beef will approximate the low level of September 1973.

Pork production should exceed year-earlier rates, but run below the 1970-72 average. Hog slaughter rates should be starting the seasonal increase.

POULTRY & EGGS —

Egg output should be slightly below September 1973 and about 4% under the 1971-73 average.

Broiler-fryers should be down 2% to 4% from last September and 4% to 6% below the 1971-73 average.

Turkey new-crop marketings should be about 2% below September 1973 and about 9% under the 1971-73 average. Cold storage holdings remain at record levels — one-third more than the most recent 3-year average.

MILK & DAIRY PRODUCTS —

Fluid milk, butter, cheese, and nonfat dry milk supplies should be adequate. Although milk production continues to decline seasonally, commercial stocks of the three manufactured items remain above levels of a year ago and the 1971-73 average.

FRUITS, VEGETABLES, NUTS

Bartlett pear supplies will be ample, with output from

California, Oregon, and Washington nearly equal to the 1971-73 average but 6% under 1973.

Prune and plum production in Michigan, Idaho, Washington, and Oregon should be about 10% less than last year and 5% below the 1971-73 average.

California grape supplies will be ample. Production is slightly less than a year ago, but 17% more than the 1971-73 average.

Apples will be ample as the late summer-fall harvest gets underway. The 1974 crop will be slightly under last year's, but about equal to the 1971-73 average.

Canned non-citrus fruits will continue tight, but citrus juices will be plentiful. At the end of July, Florida concentrated orange juice stocks were 20% larger than 1973's abundant supply.

Dried prunes remain ample. This year's production is expected to run 24% less than last year, but be greater than the latest 3-year average.

Raisin supplies will be moderate, due mainly to 1973-crop inventories. That crop was 32% above the 1970-72 average.

Fresh vegetables will be ample and canned vegetables generally adequate. Stocks of most processed tomato products may be heavy.

Frozen vegetables will be in good supply. July 1 stocks were 34% above 1973 and

22% ahead of the 1971-73 average.

Potato supplies are increasing seasonally. The 1974 summer crop is 11% above 1973, and more fall-crop acreage — 7% over 1973 — should boost fall production. July 1 frozen potato stocks were 5% above 1973, but 14% below the 1971-73 average.

Walnuts will be abundant. Production in 1974 should be about 19% less than the large 1973 crop but about equal to the 1971-73 average.

Almond supplies will be more than adequate, since 1974 production is expected to be much larger than both the 1973 and the 1971-73 averages.

Peanuts remain ample. Production in 1974 is expected to be slightly under last year's record crop but larger than the 1971-73 average.

GRAINS & LEGUMES —

Dry bean supplies should be ample, with expected record output 24% above last year and the 1971-73 average. Dry peas and lentils should be ample, with dry peas nearly doubling last year's crop and totaling 28% more than the most recent 3-year average. A larger than average lentil crop is expected.

Rice supplies are expected to be fully adequate. A record crop is forecast — 15% above a year ago and 22% above the latest 3-year average.

Wheat will be tight but adequate for U.S. needs. The new crop, mostly harvested, is pegged at a record — 8% above 1973 and 13% over the 1971-73 average.

Corn for food should be adequate even though the corn crop is forecast at 12% below a year ago and the 1971-73 average.

Unusual Shrimp Salad Is A Dieter's Dream

It is not often one slim-down dish offers so much for so few calories, but it is all here—protein, vegetables, starch, great flavor, and servings so generous they can take a long, beautiful time to eat!

Shrimp and rice are at the heart of it. Shrimp, of course, are all lean and low-calorie (about 150 to the 4½-ounce can), but they contribute the high quality protein needed to hold back hunger between meals. In modest quantities, rice adds only its wallop of fuel and energy. As the saying goes, it is not the starch that fattens but what is spooned over it. And a trick way of cooking the rice gives the whole salad a very satisfying but deceptively rich flavor.

This is a pretty salad—all shrimp-pink and greens—with a slightly Oriental look, particularly when vegetables are cut on the slant. It serves four but for one person single servings may be spaced by adding rice and fresh ingredients to the shrimp mixture as needed.

WAIST WATCHER SHRIMP SALAD

- 1 can (4½-ounces) shrimp
- 1 can (1 pound) cut green beans
- 1 garlic clove, thinly sliced
- 1 tablespoon salad oil
- 1/4 teaspoon dry mustard
- 1/2 teaspoon sugar
- 1/4 cup vinegar
- 2 chicken bouillon cubes
- 2/3 cup uncooked rice

- 1 cup sliced celery
- 1/2 cup sliced scallions or sweet onion
- 2 cups shredded crisp lettuce
- Soy sauce (optional)

Have shrimp and beans chilled in the can. Drain both, reserving the bean liquid. Crush garlic in a large salad bowl. Add oil, mustard, sugar, vinegar, shrimp and beans. Toss well; refrigerate. Heat bean liquid; add bouillon cubes and stir until dissolved. In a saucepan combine liquid with enough water to make 2 cups. Add rice. Bring to a boil and cook rapidly, uncovered, about 8 minutes or until rice stands above the water line. Reduce heat to lowest point; cover closely and steam 12-14 minutes. Spread rice in a shallow pan to cool, using a fork to separate the grains. Refrigerate 10 minutes or until needed. At serving time, add rice to shrimp and bean mixture; toss together with celery, onion, lettuce. Serve with soy sauce. 4 servings.

FROM THE FILES . . .

FIFTY YEARS AGO (September 5, 1924)

The Hamlin City Public Schools will open next Wednesday morning, Sept. 10, with the rendition of a program in the auditorium, beginning at 8:30. Those who are interested in the welfare of the Hamlin school, which will include everybody in Hamlin and its trading territory, are asked to be with us for this opening program.

A mid-summer government report indicated that the leaf worm would probably not infest the state this season. A second report shows that the pest has crossed the Rio Grande and is northward bound. In Haskell and on the south side of Jones County, this worm has appeared. Every cotton grower should inspect his fields daily, and if small holes are found in the leaves, likely the leaf worm is present.

Over 200 bales of cotton have already been weighed in the cotton yard of Hamlin. The cotton season is NOW on and business is beginning to hum. Hamlin has her usual large number of cotton men, who give all that the market will allow. Cotton on Thursday was selling around \$23.50 or better. Seed was selling for \$29.00.

Another call meeting is made for Hamlin High School Seniors, to be held in the High School Auditorium, Saturday morning, Sept. 6th, at 10:00 o'clock. Important. Be sure to come.

TWENTY YEARS AGO (September 3, 1954)

Hamlin area exhibitors played a major role in the annual Fisher County Fair and Livestock Show at Roby last Saturday. J. Olin Amerson's Atomic Domino beat out Y-6 Royal Mixer 102nd, shown by Elbert Payne, herdsman for Mrs. Faye Young Morton's Y-6 Ranch at Hamlin, for the blue ribbon.

Painters were busy in the middle of the week painting the new water tank recently installed at the city pump station to care for needs of the Celotex Corporation. The tank was moved from Sweetwater, and reerected by a special tank crew.

First quarterly conference of the new church year for Hamlin First Methodist Church will be conducted Sunday morning at 11:00 o'clock,

according to Rev. Darris L. Egger, pastor.

Selection of the Jubilee Queen at the first annual Tri-County Jubilee in Hamlin next Saturday, Sept. 11, will provide not only a display of beauty and talent of this region of West Texas, but promises to furnish a competitive feature second only to the naming of Galveston's bathing beauty each spring.

Work on the big new \$70,000 water filtration plant for the City of Hamlin is about two-thirds completed at the city pump station. Practically all the cement work had been done by mid-week, and the big piping system was being installed this week.

TEN YEARS AGO (September 3, 1964)

The Hamlin Lions Club will celebrate their Thirty-fifth anniversary with a banquet at the Primary School Cafeteria Thursday, Sept. 10, according to Bob Craig, president. The Ladies affair will be at 7:30.

Family Night will be held by the Hamlin Riding Club tonight at the local arena. The same events that have been scheduled during the summer will be held.

High winds caused heavy damage to trees, television antennas and tin roofs here Saturday afternoon. The strong wind was followed by rain which measured .68. Rain earlier in the week, on Wednesday evening, amounted to .93. Residents east and southeast of Hamlin spotted two funnels in the E. L. Jenkins Sr. fields. They said one appeared to go northeast and the other southeast.

The Rev. Byron Bryant, director of religious activities at Hardin-Simmons University and formerly director of public relations for the university, Sunday announced he has accepted a call to the pastorate of the First Baptist Church of Hamlin and resigned his H-SU post.

David Casey will head the annual Salvation Army Campaign, according to Floyd Clifton, Salvation Army Service Unit Chairman. The goal of the campaign is \$800.00. The campaign organization will begin immediately with the kick-off set for Sept. 18.

Neinda Philosopher Finds Ideal Way To Rescue Himself From Inflation

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route one takes another look at the problem of inflation this week.

Dear editor:

As I understand it from reading the newspapers that turn up out here, the economists are saying that in our fight against inflation everybody is simply going to have to tighten his belt, which

Visitors in the home of Mr. and Mrs. Louis Stinnett last week were his two daughters and a son and their families, Mr. and Mrs. Todd Roberts Jr., Cindy and Susan of Bullhead City, Ariz., Mrs. Nancy Mayfield and Gary of Hurst and Mr. and Mrs. Louis Stinnett Jr., Trey and Leah of Abilene.

Mr. and Mrs. Henry Downey attended the John Lewis Moore reunion at Gainesville Sunday. Mr. and Mrs. A. W. Bowen, Mr. and Mrs. Charles C. Bowen and Mrs. E. N. Bowen, all of Sweetwater, also attended. Mrs. John Lewis Moore Jr., 87, of Amarillo was the oldest present.

W. M. Watson returned home Saturday after being in Galveston with his son, Jim, who received a kidney transplant at John Sealy Hospital Aug. 20. Jim is reported to be recovering nicely. Mrs. Watson is still in Galveston. Mail may be sent to James Watson, Room P 425, John Sealy Hospital, Galveston, Texas 77550.

is hard to do if you're wearing overalls, not to mention those new-fangled double-knit slacks that don't even have belt loops. Also, it would be wise to make sure your belt is in good shape before you take it up a notch because if you break it you'll find a new one has tripled in price.

However, my favorite way to fight the effects of inflation is the idea hit on by a big airline. It says the tremendous increase in the price of fuel, repairs, maintenance, salaries, etc. has caused it to lose millions and it's facing bankruptcy and therefore the Federal government should lend it 10 million dollars a month, retroactive to several months back.

That's the answer. Anybody who can't make ends meet is entitled to a government loan and I'd like to find out where I can apply before the line stretches from Washington to Hamlin and four times around the block here. If the government will lend me money for every month in the past I failed to make ends meet and for all months in the future the same thing happens, I'll guarantee to arrange my operations to be a steady customer from now on.

In some ways it seems to me the fight against inflation is sort of like our fight in Vietnam. After spending

Sgt. Jack LaBaume and a friend, Ray, of Ft. Carson, Colorado Springs, Colo. spent Labor Day holiday weekend with his grandmothers, Mrs. C. E. LaBaume and Mrs. W. F. Lasseter.

billions and billions of dollars over there it's still hard to figure out what we achieved, other than finally getting out.

The question now is, how do you withdraw from inflation? A rancher friend of mine said cattlemen already have half-withdrawn. They're getting half what their cattle are worth and paying twice as much to raise them. Said if cattle go down a little bit more he's going to have to start paying buyers to take em.

Yours faithfully,
J. A.

HUSTLE AND BUSTLE

The big city throbs with business life, heavy traffic, and the comings and goings and doings of many people. Whether you live in the city or you just come to town occasionally from the small town or farm, you have experienced this hustle and bustle. It reminds you that all life sometimes gets too hurried, too frantic with all we must do. We need a time to stop and somewhere to go to find peace and respite from all this. Have you thought of trying God? Job 22:21 says, "Acquaint now thyself with God and be at peace."

How sweet it is to be in God's house, to feel close to Him, to listen to His word. Tension leaves. Peace of soul arrives. Won't you attend God's house this week and see what he can do for you?

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

I heard the same question in 1937.

WHERE WILL WE GET ELECTRICITY?

The member-owned electric cooperative has had to solve many critical problems since it was first organized more than 30 years ago. The present high cost of generating fuels and the resultant higher electric bills represent another hurdle to clear. But the electric cooperative has always provided dependable power when and where it was needed. We will continue to offer that same dependable supply of electricity at its lowest possible price.
